MISSION

Gruppo Italia Energia focuses on broadcasting independent information able to improve knowledge and operation of always more and more complex markets.

MEZZI EDITORIALI

The Group, which has always specialized in the energy sector, has three publications: Quotidiano Energia, Canale Energia and CH4 H2O the Italian gas and water magazine. The competence in the energy sector has also allowed the Group to develop over the years a communication system that involves the creation of physical and virtual events, media partnerships, round tables, content providing services, video services and graphic design.

Quotidiano Energia, the leading Italian online publication for energy information, has been publishing news, analysis and prices every day since 2005. It is an essential tool to know the energy sector and follow its transformations. Within it, insights into the energy, environmental, efficiency and mobility markets, with a focus also on the legislation, parliamentary activity and taxation. QE news is completed by a video area offering reports and interviews. Also available is a daily monitoring of fuel prices in Italy, an agenda of events of interest and a weekly newsletter on the water sector.

Every evening, from Monday to Friday, a printable and interactive version of the newspaper is published in pdf format. Since 2017 QE has been organizing a photo contest with the goal to show, through images, the changes in the world of energy.

Target

Consumers, energy poor, utilities, software companies, energy consumers, energy managers, PA, sector professionals, energy management experts, energy production companies, architects, condominium administrators, institutional stakeholders.

Columns

Scenarios, Pollution, Renewables, Where I can recycle it?, Architecture_2.0, CarbonfooDprint, Consumers, Circular economy, Smart city, Energy in Parliament, Energy efficiency, Energy method, Think teck.

Views and impressions are calculated on a monthly basis. The number of impressions may change in relation to the number of customers (at most three) present at the same time in the chosen advertising position. Data updated to November 2021.

Canale Energia Daily

The evening newsletter with all the news published on the site on that day, to keep up to date.

Canale Energia Dossier

Periodically, Canale Energia organizes an in-depth round table on a topical issue. After the event is drawn up a dossier with video interviews with the speakers e scenario analysis. The dossier interactive and responsive is sent to a mailing list with over 13,500 contacts.

Canale Energia telegram

The magazine has a dedicated Telegram channel with which to receive updates in real time.

"Alleanza contro la povertà energetica"

Canale Energia, as a free online publication designed to educate on the opportunities of the energy transition, has decided to pay particular attention to the energy poors by setting up the Alliance against energy poverty. The initiative, launched in 2019, was born with the intention of establishing a dialogue between institutional and operational stakeholders in the field, synergizing with research actions and European projects to devise innovative and specific solutions on the subject. The Alliance wants to be a hub for the aggregation of news about this topic, the creation of a network of subjects and to propose concrete solutions.

Since 2021, the Alliance organize a comic photo contest named "Give a cut

to energy poverty" to raise awareness of the phenomenon of energy poverty, transmit good practices and help people consume less and better.

LA RIVISTA ITALIANA DEL GAS E DELL'ACQUA

www.gruppoitaliaenergia.it/ch4/

Since 2000, an editorial reference to understand the dynamics of an ever-changing sector. The magazine deals with topics related to transport, distribution and sales, addressing current regulatory and network development towards the interoperability of the IT system and computer security. In addition, insights on technology, market and regulation of the Integrated Water System

With quarterly periodicity, it is available in paper and digital format.

Each issue is sent to a mailing list of 1,985 contacts.

From the second issue of 2022 a new name and a new logo will characterize the publication that becomes the Italian Magazine of gas and water.

Idrico, la relazione semestrale Arera

Il percorso di definizione degli enti d'ambito e le difficoltà gestionali in alcune aree

Con il finire del 2020 Arera ha approvato la dodicesima relazione alle Camere, aggiornata al secondo semestre 2020, redatta ai sensi del D.Lgs. 152/2006 "Norme in materia ambientale". L'Autorità rileva un "definitivo completamento dei percorsi di adesione degli enti locali ai relativi enti di governo dell'ambito in tutte le aree territoriali del Paese (nel 2015 si registravano criticità in nove regioni)...

Video Reportage

Inform through the images and voices of the protagonists. This is the video reportage on Canale Energia. One of our specialized reporters will visit a plant or an installation of your business reality, interviewing and recording your technicians / employees and users of your services. The video will then be edited both in full format (duration about 10 minutes) for use by the customer who can publish it on his communication channels citing the source, and in short format (duration about 3 minutes) for the publication on Canale Energia together with an original text.

Visibility includes a day on the homepage, the launch of the magazine on social media with the social references of the interviewees and publication in the relevant column and in the Canale Energia Daily newsletter.

L'energia sull'Isola di Ponza tra innovazione e ostacoli burocratici

di Irene Casaroli - 10 ottobre 2017

Vedere i confini dell'innovazione per pensare l'energia a definire i contorni del vivere sostenibile. Da insegnare del "crowdfunding", anonimo però, a l'unico contributo tra mondo dell'energia, dei maggiori e dei minori, oggi la SEP, Società di produzione, trasmissione e distribuzione dell'energia sull'Isola di Ponza, sta puntando su un modello sostenibile.

Un percorso che è stato ed è - un salto a incasso tra lungaggini burocratiche. Momento di maggiore difficoltà il 2015, anno del sequestro della centrale principale di Via Cesurano, all'indomani della sospensione della produzione per motivi ambientali e dello spostamento della sede centrale a La Formica. Dal 1° gennaio 2016, il tempo necessario a ottenere le autorizzazioni per la costruzione del nuovo impianto, in cui la SEP ha avuto il pieno sostegno dell'amministrazione locale. Il la ripartenza con l'avvio della produzione nel 2015, nella centrale provvisoria di Monte Pagliaro dotata di 4 gruppi elettrogeni di circa 6 Mw di potenza. Senza sbagliare le mosse grazie anche alla presenza della centrale di emergenza di Cala dell'Acqua.

Dossier

Follow an event from the point of view of the protagonists with articles, video services and insights. The aim of the CE dossier is to allow us to understand the various aspects of a topic with a work that includes several voices.

The service is structured by an integration of texts and videos of different lengths. It can be published at different times with internal reference links between the pieces and finally collects all the interventions of the special in a dedicated newsletter.

Visibility includes the day by day publication of the content agreed in the homepage with archive in the reference section; a week on the homepage with a reference news / banner of the complete dossier; the launch on social media of the magazine and on the newsletter.

Chimica verde da opportunità per l'ambiente a realtà imprenditoriale
I protagonisti alla fiera europea Maker Faire che si è svolta a Roma

Da Irene Casaroli - 10 ottobre 2017

B la plastica per realizzare cornici o tessuti, utilizzo di scarti industriali di meta e per di più per produrre petardi. Ma non solo, cactus per l'edilizia e soluzioni sostenibili innovativi.

Questo è molto altro è possibile con la chimica verde, scienza sviluppata e pronta per essere competitiva in Italia. Nella realtà del nostro Paese sono avanzate ma anche l'Italia sta diventando un terreno fertile per accogliere innovazioni di materiali che superano l'industria del carbonio (come vedremo più giù con l'intervista video a Daniel Ku, Director of science and innovation di Lifebyte).

Quest'anno i nodi della chimica e dell'economia sono andati a questo settore. Ultimo appuntamento, se ce ne era bisogno, del personale economico, commerciale e industriale di questa tecnologia.

Un settore che vanta diverse eccellenze anche in Italia ne parliamo con **Silvia Mazzanti**, presidente di **Chimica Verde Mater** incontrata nel corso del "Maker Faire" (23-24 ottobre, Fiera di Roma) all'interno del padiglione dedicato alla economia circolare insieme a diverse altre iniziative del settore. Mancano alcuni nodi da sciogliere per lanciare definitivamente il comparto: una chiara normativa sulla filiera dei prodotti biodegradabili e biocompatibili che devono poter andare nella filiera e un supporto, almeno nella fiscalità, delle produzioni virtuose per l'ambiente.

Circular economy a partire dagli oli esausti, la stragela Eni presentata al Maker Faire 2018
